Roll an Artillery dice and double the result - this is the distance in inches (measured from the nominated point) that the Ice Storm affects. If a Misfire is rolled, it affects the entire battlefield. Until the start of the caster's next magic phase, all units caught in the Ice Storm suffer -2 to hit with missile weapons, and units that do not fire using BS can only fire by rolling a 4+ on a D6. In addition, all units inside the radius of the Ice Storm suffer 2D6 S 2 hits. Remains in play. May be cast on the wizard herself. While active, she gains Terror and Armour Piercing (1), +3 S, +2 T and +3 A. The effects of all magic items are ignored for the duration of this spell. While in this form, she follows all the rules for Monstrous Beasts.</p></div> | <div><div>Hereditary Spell</div><div>Summon Spirits</div><table><tr><td>CV</td><td>Type</td><td>Duration</td></tr><tr><td>7+/13+</td><td>Range 24"/36"</td><td>Istantaneo</td></tr></table><div>Effect</div><p>Causes 3D6 Strength 2/3 Armour Piercing (1) hits.</p></div> | CV   | Type     | Duration | 7+/13+        | Range 24"/36" | Istantaneo                                                                                                                                                                                                                                                                                                                                                                     |    |      |          |   |       |            |

| You may force the unit to do one of the following; make a normal move (including marching and reforming), or shoot with their missile weapons at a friendly target. If the unit refuses do to either of these things, each model in it suffers a S 4 hit. |                  |                 | Place the small/large template anywhere within range – it scatters D6"/2D6". Models touched by the template must take a T test or suffer one wound, which Ignores Armour saves. |                  |                 |                         |                  |                 |
